BROCKMANS®

Intensely Smooth
PREMIUM GIN

The distinctive, intensely smooth taste is created from a unique recipe of premium botanicals and a carefully managed steeping and distillation method. The more traditional notes of gin are combined with a refreshing influence of citrus and aromatic wild berries to create a gin taste *like no other*.

The top note of Bulgarian coriander has an aromatic, gingery orange flavour, which marries beautifully with the softer, more rounded harmonies of blueberries and blackberries and the bottom note created by Juniper berries from Tuscany. This inspired combination, together with the dry, bitter/sweet peel of Valencian oranges elongates the deeper tones to give Brockmans an intensely smooth beautiful taste.

This distinctive flavour profile makes Brockmans appealing to gin and non-gin drinkers alike and its smooth and exceptional taste means that this is one of the few gins that can be enjoyed simply neat over ice.

BROCKMANS is showing strong growth in both the On and Off Trade.
Growing +46% value On Trade and +158% value Off Trade

PERFECT SERVE

INGREDIENTS

Double measure of Brockmans Gin
Handful of fresh blueberries
Premium tonic
Twist of pink grapefruit peel
Large ice cubes

Prepare with a twist of pink grapefruit peel and two blueberries. Add extra large ice cubes and chilled premium tonic.

The sharp acidity of grapefruit and floral notes of blueberry combine beautifully with the unique botanicals in Brockmans Gin. For a complex, yet refreshingly smooth taste.

BROCKMANS is **outperforming the category average in both on and off trade**, off trade most notable at 3x market average.

Gin as it should be.

When Christian Jensen first tasted the vintage gins from London's lost distilleries, he began a journey. Creating a finely balanced gin that honoured these forgotten recipes became his obsession. That's why Jensen's is distilled in small batches, using only traditional gin botanicals. So there's really nothing new about Jensen's, and that's why it's different. Distilled in Bermondsey, London, Jensen's is gin as it was. Gin as it should be.

MARTIN MILLER'S GIN

MARTIN MILLER'S GIN

Martin Miller's Gin is distilled in England in a pot still using two separate distillations, which imparts a unique balance of citrus and juniper. It is blended to a bottling strength of 40% ABV with Icelandic spring water, it is this water which gives Martin Miller's Gin its gentle bouquet and trademark softness.

 Premium Tonic Water
 Quartered strawberry
 Cracked black pepper

1. Fill the glass with ice
2. Pour Martin Miller's Gin over the ice
3. Add quartered strawberry
4. Top up with tonic
5. Top with 1 twist of black pepper

MARTIN MILLER'S WESTBOURNE GIN

Westbourne's flavour profile has emphasis on the spicier, peppery notes of cassia and nutmeg along with a higher strength, 45.2% ABV. From its launch it has enjoyed an underground cult status as the bartender's favourite and became a closely guarded secret among the bar fraternity.

MARTIN MILLER'S WESTBOURNE NEGRONI

20ml Martin Miller's Westbourne Gin
 20ml Sweet Vermouth
 20ml Campari
 1 fresh orange peel

1. Pour the gin, vermouth and Campari into a mixing glass
2. Add ice and stir until chilled
3. Strain into a rocks glass and garnish with an orange peel

9 MOONS SOLERA RESERVE

9 Moons Solera Reserve is rested for at least 9 months, or moons, in French oak barrels that have been dried in the open, adding rich berry sweetness and enhancing notes of vanilla and coconut. Blended to strength of 40% ABV and aged at the barrel store in Borgarnes, Iceland, where the climate is cold and surprisingly dry, this ideal atmosphere slows the ageing process significantly enhancing the gin. The solera reserve method ensures consistent quality.

9 MOONS SOLERA RESERVE ON THE ROCKS

50ml 9 Moons Solera Reserve

1. Pour into a rocks glass.
2. Add a cube of ice.

THE DO'S AND DON'TS OF PINK GIN

OR

GROWING RASPBERRIES THE PINKSTER WAY

OUR PRODUCTION PLANT

Here it is in all its glory, *Rubus parvifolius* (the raspberry bush to you and me), ready for the Pinkster Season.

OUR PRODUCTION LINES

Row upon row of beautiful natural raspberry bushes is all we need to create the subtle fresh taste of Pinkster.

OUR WORKERS

These little chaps work tirelessly all summer to create raspberries that are pure nectar when added to our gin.

THE FRUITS OF OUR LABOURS

Great big juicy fruit, just ripe for the picking and bursting with delicious Pinkster flavour.

Deliciously dry with a hint of real raspberry and an exceptionally smooth finish.

REAL RASPBERRIES. IT'S A PINKSTER THING

LONDON CUP 70cl**
A reimagining of the traditional gin cups of the 1800's.

Sipsmith opened the floodgates for the gin boom after opening the first copper pot distillery in almost 200 years.

We hand craft our gin in small batches with skill, care and love. Only ever taking the heart of the spirit, and never made from concentrate, this is gin made the way it used to be, the way it should be. The result is stunningly smooth, full of character and exploding with flavour.

THE PERFECT TEQUILA FOR A SENSATIONAL MARGARITA

Only the Jose Cuervo portfolio of Tequilas infuses a margarita with fun, intensity and a spirit that captures the heart and soul of Mexico.

Jose Cuervo Especial Silver is made with family estate grown and harvested blue agave. With its rich, volcanic soil, abundant pure spring water and temperate climate, the highest quality blue agave is transformed by the family into a fine spirit that yields clean, crisp and smooth tequila. Legend has it that Especial® Reposado was used to make the first ever Margarita, the world's best-selling cocktail. The Jose Cuervo Especial® bottles celebrate the Cuervo family's heritage, tradition and long-standing dedication to quality and integrity and the Jose Cuervo® logo has become a truly iconic symbol of the world's oldest, most recognised tequila.

Jose
Cuervo

1800

TEQUILA

1800® is named after the year in which Jose Cuervo® first began barrel-ageing tequila. In more than two centuries since, 1800® has never wavered from its original formula and distillation process. The iconic bottle is reminiscent of the centuries-old Mayan stone pyramids and the words on the label's crest reflect how 1800® has always remained true to its values of Trabajo, Passion, Honestidad – or work, passion and honesty – to produce a 100% agave, quality tequila each and every time.

GRAN
CENTENARIO

In 1895, Lazaro Gallardo named his specially produced tequila Gran Centenario® to celebrate 100 years of tequila production. Today, Gran Centenario® is still handcrafted in small batches using the finest blue agave plants and is recognised as Mexico's most award-winning 100% agave. The bottle, made of fluted glass, is inspired by the art deco style of design and the Angel, seen on every label, reflects the legend that Lazaro Gallardo thought his agave fields so precious that he called on an angel to keep a watchful eye over them.

NATURALLY CAFFEINE FREE ♥ NO COLOURANTS

NO PRESERVATIVES ♥ CONTAINS ROOIBOS EXTRACT

Fizz-less goodness in every sip.

Feel refreshed with RUBRO (roo'bro). This still thirst quencher is infused with Rooibos (roy' boss), a herbal tea that grows naturally in only one place on earth: the Cederberg and surrounding mountains of South Africa.

DISCOVER FIJI WATER.

On a remote island over 1,600 miles from the nearest continent, tropical rain slowly filters through volcanic rock into an ancient artesian aquifer. Drop by drop, FIJI Water acquires the minerals and electrolytes that give it its signature soft, smooth taste. There's nothing on Earth quite like it.

MARASCHINO CHERRIES aren't the bright red cocktail cherries you usually see. These are Marasca Cherries, harvested from Luxardo's orchards in Northern Italy and steeped in a maraschino syrup, creating little cherry flavour bombs that will ruin you for other cocktail garnishes!

LUXARDO MARASCHINO follows the original recipe from 1821 and requires four years to produce this specialty. Marasca cherries are harvested from Luxardo's own trees and the solid components are then infused in larchwood. The product is distilled in small copper pot stills. Finally a combination of sugar and water is added before bottling.
